

**TECHNICAL DATA**

Product: FAST table

Design : Carlos Tiscar

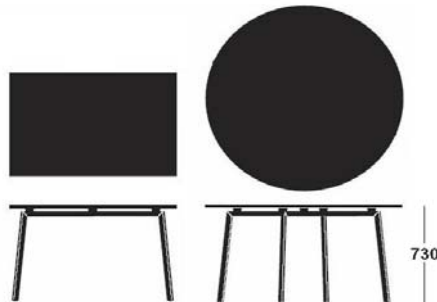

**Technical data:**

**Folding and knocking-down table.** It allows the composition of tops in different shapes and dimensions (rectangular, square, or round one). Tops can be linked.

**Frame:** composed by two structures of steel epoxy painted in colours white, black or grey and two symmetrical legs in steel tube 40x30x1,5cm. Joined by a kneecap which allows different positions with the same frame and get several table options.  
The frame has two adjusters and by placing two castors the table can be moved from one side to another.

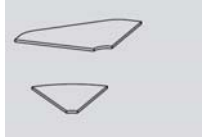

**Knee-cap:** it allows the different positions of the legs enabling one unique frame to be adapted to several shaped and sized tops.  
armazón para poder trabajar con encimeras de diferentes formas y dimensiones.

- Frames: Compact (12 mm thickness)**  
Melamine (20 mm thickness)
- For Frame A (1200mm)**  
1200 x 600 mm.  
1200 x 800 mm.  
Ø 1400 mm.
- For Frame B (1400mm)**  
1400 x 600 mm.  
1400 x 800 mm.  
Ø 1500 mm.  
Ø 1600 mm.
- For Frame C (1800mm)**  
1800 x 600 mm.  
1800 x 800 mm.  
Ø 1900 mm.  
Ø 2000 mm.

**Accessories:**

Corner tops

90 Grades  
600 x 600 mm.  
800 x 800 mm.
