

# HANDY Stool

## ECODESIGN

ISO 14006:2011

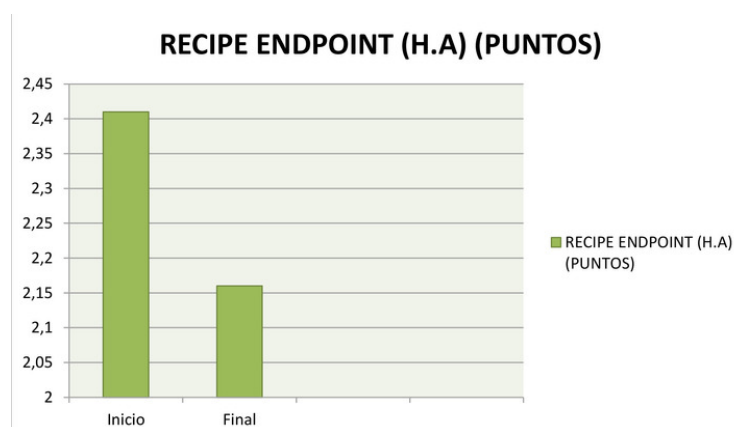

### COMPARATIVE TABLES OF ACHIEVEMENTS

Comparing the scores achieved in the different stages of the product life cycle a total value is obtained. This value measures the **improvement of the environmental aspect of the Ecodesigned product**.

HANDY STOOL	ORIGINAL	ECODESIGNED	IMPROVEMENT ACHIEVED (%)
TOTAL	2,41	2,16	10,4
MANUFACTURING	1,61	1,39	13,7
MATERIALS	1,10	0,95	13,7
PROCESSED	0,50	0,44	13,7
TRANSPORT	0,004	0,003	13,7
DISTRIBUTION	0,80	0,77	3,9
USE	<0,001	<0,001	0,0
END OF LIFE	0,00	0,00	0,0

Values expressed in milipoints, a unit of measurement established to homogenize all the variables.

### COMPARATIVE GRAPHIC WITH ECODESIGN RESULTS

### END OF LIFE INFORMATION

Once the product life cycle is completed separate mechanically the metallic parts from the plastic ones and leave each material at the corresponding facility.
