

## BACK Modular Seating: MAIN FEATURES AND USP's

**BACK Modular Seating** is a Modular Seating System for Waiting Areas, Churches and Funeral Homes designed by Burkhard Vogtherr that offers Oak Wood, Upholstered Front and Upholstered Seat.

The main **USP's** of BACK Modular Seating are:

- **Modular System:** the system offers 9 modules of different shapes and dimensions that allow creating an infinite variety of different compositions.
- **Honest Design:** the system is based on a 19 mm thick oak wood shell with 3 folds. The apparent simplicity of the product hides a very technically complicated manufacturing process.

### Materials:

- Legs: Coated Steel with adjustable glide
- Shell: Oak Wood, with seat pads or upholstered or upholstered fronts option

**Models:** different versions are offered.

**Spaces** where fits perfectly:

- **Waiting Areas**
- **Churches**
- **Funeral Homes**
