

ZUBI: MAIN FEATURES AND USP's

ZUBI is a Work Space, Hospitality and Education Table program designed by Abad Diseño.

The main **USP's** of ZUBI are:

- **Innovative Design:** the system offers a wide range of options because of the possibility of combining different Heights (75, 90 or 110 cm), Lengths (120, 180, 240 or 300 cm) and Widths (70, 90 or 110 cm).
- **Compositions:** the system offers the possibility of joining tables (even of different heights and lengths) sharing the joining legs.
- **Integrated Electrification:**
 - The system integrates the electrification so that the cable management is hidden inside the table legs or in the support beam.
 - The system offers two electrification options: on the surface or on the support beam.

Materials:

- Frame: Wood
- Top: Wood or Lacquered

Models: different table dimensions with different finishes are offered.

Spaces where fits perfectly:

- **Offices**
- **Coworking spaces**
- **Hospitality**
- **Education**
