

MASS: MAIN FEATURES AND USP's

MASS is a stackable chair designed by ITEMdesignworks.

The main **USP's** of **MASS** are:

- **Stackable up to 40 chairs** on a trolley, reaching a 1.70 m height, or 15 chairs on the floor.
- **Functional** thanks to its practical accessories:
 - Writing tablet
 - Linking device
 - Row numbering
 - Column numbering
 - Trolley
- **5 mm thickness on the backrest** perimeter which reinforces the **clean, light and timeless design**.

Materials:

- Frame: Steel rod
- Seat and Backrest: Polypropylene (seat upholstered option)

Models: Basic chair, chair with armrests and high chair.

Spaces where fits perfectly:

- **Palaces of Justice**
- **Auditoriums**
- **Hospitality:** meeting rooms of hotels
- Other spaces in which chair quantity varies depending on the event.
